Education

SSM College of Engineering & Technology, Pattan, J&K August 2026
B.Tech in Computer Science and Engineering
CGPA: 8.9/10
Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Operating Systems, Software Engineering

Technical Skills

Languages: JavaScript (ES6+), Python, PHP, HTML5, CSS3
Frontend: React.js, Bootstrap, Responsive Design
Backend: Node.js, Express.js, FastAPI, REST APIs
Databases: MongoDB, MySQL
ML / Data: scikit-learn, pandas, XGBoost
Developer Tools: Git, GitHub, Postman, VS Code

Experience

Freelance Frontend Developer 1 year – Present
- Built responsive website interfaces for clients, including a local shop, translating requirements into mobile-friendly pages.
- Developed additional project work for college juniors, adapting interfaces and features to their needs.

Machine Learning Intern, NIT Srinagar December 2025 – February 2026
- Built a Fake News Detection system using TF-IDF features and trained and compared Logistic Regression, Decision Tree, Gradient Boosting, and Random Forest classifiers.
- Evaluated models on a Kaggle dataset to identify a suitable approach for text classification.

Projects

CareToConnect: AI-Assisted Developmental Screening Platform (Capstone) React, FastAPI, MongoDB, Python
- Built a full-stack web app digitizing M-CHAT-R/F autism and ARS-IV ADHD screening questionnaires with a React frontend and FastAPI + MongoDB backend.
- Designed a scoring engine using Random Forest feature-importance weights trained on 1,055 Q-CHAT-10 records; cross-validated against XGBoost at approximately 96% accuracy.
- Integrated Google Gemini 2.5 Flash to analyze free-text behavioral observations and support screening results.

Amazon Clone: E-Commerce UI JavaScript, HTML5, CSS3
- Created a responsive replica of Amazon's homepage and product pages using vanilla JavaScript, with dynamic DOM rendering and a working cart.

PGLife: PG/Hostel Listing App PHP, MySQL, HTML, CSS, JavaScript
- Built a full-stack listings application with database design and CRUD features as the final project of an eight-week web development training program.

Personal Projects & Interests

Client Website Projects Frontend Development
- Delivered website projects for local clients and college juniors, focusing on responsive interfaces and practical requirements.

Certification

Web Development Training, Internshala February 2024
Eight-week program covering HTML, CSS, Bootstrap, DBMS, PHP, JavaScript, and React; scored 100% on the final assessment and recognized as a top performer.
