SUMMARY

Full-stack developer (React, Node.js, Express, MongoDB) with a B.Tech in Computer Science (Aug 2026). Built an AI-assisted screening platform end to end, plus 1 year of freelance front-end work and a Python ML internship at NIT Srinagar. Looking for a Frontend / Full-Stack role.

TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Design
- **Backend:** Node.js, Express.js, FastAPI, REST APIs
- **Databases:** MongoDB, MySQL
- **ML / Data:** Python, scikit-learn, pandas, XGBoost
- **Tools:** Git, GitHub, Postman, VS Code, PHP

EXPERIENCE

Freelance Frontend Developer | 1 year
- Designed and built responsive front-end interfaces for client websites.
- Turned client requirements into working, mobile-friendly pages.

Machine Learning Intern, NIT Srinagar | Dec 2025 – Feb 2026
- Built a Fake News Detection system using TF-IDF features, trained and compared four classifiers: Logistic Regression, Decision Tree, Gradient Boosting and Random Forest.
- Benchmarked the models on a Kaggle dataset to pick the most accurate approach for text classification.

PROJECTS

CareToConnect: AI-Assisted Developmental Screening Platform (Capstone) | React, FastAPI, MongoDB, Python
- Built a full-stack web app that digitizes the M-CHAT-R/F (autism) and ARS-IV (ADHD) screening questionnaires, using a React frontend and a FastAPI + MongoDB backend.
- Designed the scoring engine from Random Forest feature-importance weights trained on the Q-CHAT-10 dataset (1,055 records); cross-validated against XGBoost at ~96% accuracy.
- Integrated Google Gemini 2.5 Flash to analyze free-text behavioral observations and support screening results.

Amazon Clone: E-Commerce UI (Personal) | JavaScript, HTML5, CSS3
- Hand-coded a responsive replica of Amazon's homepage and product pages in vanilla JavaScript, with no frameworks.
- Implemented dynamic DOM rendering and a working cart to mirror real e-commerce behavior.

PGLife: PG/Hostel Listing App (Training capstone) | PHP, MySQL, HTML, CSS, JavaScript
- Built a full-stack listings app with database design and CRUD features as the final project of an 8-week Web Development training.

EDUCATION

B.Tech, Computer Science Engineering, SSM College of Engineering & Technology, Pattan, J&K | Aug 2026 | CGPA: 8.9/10

CERTIFICATION

Web Development Training, Internshala (Feb 2024): 8-week program covering HTML, CSS, Bootstrap, DBMS, PHP, JavaScript and React; scored 100% on the final assessment and was recognized as a top performer.
